Management

Integrity supported numerous, large-scale efforts during the 2008 financial crisis. GSA awarded us an Excellence in Partnership Award for our support under the Recovery Act. Through the application of well-defined processes, Integrity helped agencies meet their mission needs while maintaining high quality of the acquisition process. We supported the GSA in all eleven regions. GSA awarded Integrity 46 task orders to support both GSA and other Federal Agencies, which demonstrates Integrity's ability to apply resources under contingency contracting and maximize the simplified acquisition process to provide flexible, responsive support nationwide. Integrity managed as many as 17 task orders at once, seamlessly integrating multiple subcontractors (as many as six simultaneously) and overseeing support to geographically diverse clients. Our work on the Recovery Act resulted in Exceptional CPARS.

## **RAPID RECRUITING AND STAFFING MODEL**

Integrity has extensive experience supporting our clients on widely dispersed projects. We recognize the importance of a holistic approach in serving and staffing a complex, multi-faceted nationwide organization. We supported the GSA with a nationwide Blanket Purchase Agreement, developing a rapid response recruiting model with wide geographic reach that proved successful in staffing multiple large projects within 48 hours. We have over 2,000 vetted subject matter experts and professionals in acquisition management, strategic planning, finance, budget, policy, procurement, grants management and logistics - a deep bench of expertise.

## **ABOUT US**

We leverage our corporate certifications and appraised processes to gain efficiencies, improve performance, and reduce delivery risk.

We believe in impact. We define it simply: helping clients achieve mission success, leads to better government performanc stewardship - and ultimately, the imp safety, security, and health of the nation broader impact is important and esser Integrity. We hold ourselves to a professional standard in all we do. Our go understand our customers' needs so v produce meaningful, actionable resu addition, we measure ourselves by the impact we make by investing in our emp and our community. To us, these impacts duty and matters of deep integrity.
